Getting Started

This Homeowner Sales Catalogue is a product and design guide, featuring our most frequently requested items, to assist you in selecting the perfect kitchen solutions.

If you do not see the item you require, please email our Sales Team at **cse@roundelkitchens.co.uk**

When enquiring, please provide the following details:

These details will enable our Sales Team to locate the property's job number. The job number corresponds to the original order placed by the housebuilder and allows us to identify the specific ranges installed in your property.

Plot Number:	
Housing Builder Name:	
Site Name:	
House Type:	

Finding your job number

The job number can also be found on the QR code inside the kitchen sink cabinet.

Already know your details?

If you already know your property's job number and the required ranges, you may complete the order form on pages 6–8 and email it to **cse@roundelkitchens.co.uk.**

Prefer to get in touch online?

Alternatively, enquiries can be submitted via our website:

www.roundelkitchens.co.uk/new-build-homeowners

Made for your kitchen

Standard products

Our standard range includes cabinets, doors and handles in industry-standard sizes (e.g. 150mm, 300mm, 400mm, 500mm, 600mm etc.), together with a wide selection of configurations and options.

- **Selected cabinets available with CC codes**
- **Selected wall cabinets available at 340mm deep**
- **Selected base cabinets available at 300mm deep**

These options are not available for all cabinets and are indicated throughout the catalogue.

Our cabinets are supplied assembled, not flat-packed, unless specifically stated otherwise. Boiler housings are the exception and are supplied flat-packed.

Our additional services

Alongside our standard range, we also offer the following services as part of our Homeowner Sales offer:

Cut and edge laminate worktops

We can cut and edge laminate worktops to your required size for a professional finish.

Bespoke appliance housings

We can manufacture selected appliance housings to suit your appliance configuration.

Appliance brand and technical restrictions apply.

Customised & bespoke products

Where a standard catalogue item does not meet your requirements, we can offer selected customised products, subject to technical approval.

1 Handle and hinge drilling

We can drill for handles and hinges to your confirmed specification.

2 Selected alterations

We can make selected alterations to cabinets, panels and other items where required.

3 Bespoke appliance housings

We can manufacture housings to suit your appliance requirements (subject to restrictions).

4 Other non-standard items

From time to time, other non-standard products may be possible. These are not part of our advertised catalogue range and are assessed individually by our Sales Team.

Please be aware

Once a standard cabinet, door, frontal or handle is altered or manufactured to your specification – for example by drilling, handing, fitting or other customer-specific modification – it becomes a customised/ bespoke item. Bespoke and customised products cannot usually be cancelled or returned under the 14-day cooling-off period.

For full details, please refer to our Refunds & Returns Policy at the beginning of this catalogue.

For pricing and availability of customised or bespoke items, please contact our Sales Team.

How to guide

Follow these simple steps to specify and order your kitchen using our Homeowner Sales Catalogue.

1

Identify the cabinet specification required

Pages 9–10
Add this to the order form.

2

Identify the range name and colour required

Pages 11–22
Add this to the order form.

3

Identify the handle required

Pages 23–26
Add this to the order form.

4

Select the products required

Add these products to the order form remembering to include any customisation requests such as drilling for hinges and handles.

Helpful tip

Complete pages 6-8 with the cabinet specification, range name/colour, handle code(s) and product codes before sending your order form to the Sales Team.

4 STAGE 4

Choose your products

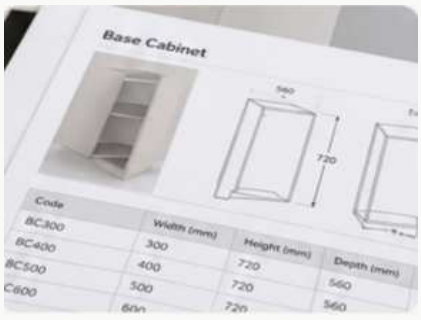
You've identified your cabinet specification, kitchen range and handle details.
You can now select the products you would like to order.

1 Choose the product required

Use the following product pages to find the cabinet, panel, worktop or accessory you need.

2 Check sizes and options

Confirm the product code, dimensions and any options shown, such as handing, drilling or finished ends.



3 Add to your order form

Record the product codes and details on your order form before sending your enquiry to the Sales Team.

Next: Frontals on page 28, then Base Cabinets on page 29.

Need help selecting products? Please email the Sales Team: cse@roundelkitchens.co.uk

Frontals

Drawers and doors

Use the tables below to find the frontal size you require. Measurements are in millimetres.

Drawer fronts

Height (mm)	Available widths (mm)
115	595
140	295, 395, 445, 495, 595, 795, 895, 995
175	495, 595
283	495, 595, 795, 895, 995
355	495, 595, 795, 895, 995
450	595
490	395, 595

Doors

Height (mm)	Available widths (mm)

715mm high door 1965mm high door

How to order

Frontal codes are based on height × width. For example, a 715mm high × 595mm wide door is F:FO715x595.

Please note

- Doors do not include handles, hinges or fitting hardware; these items must be ordered separately.
- Doors are supplied undrilled for hinges, handles and fixings unless requested.
- Additional door sizes may be available in certain ranges; please contact the Sales Team.

Highline and Drawerline cabinets

All base cabinets are 720mm high and 570mm deep (excluding door) and are supplied with 150mm adjustable plinth legs.

Highline cabinets

Single door cabinets include one door, one handle, Blum hinges, 150mm adjustable plinth legs and one pre-installed adjustable shelf.

Double door cabinets include two doors, two handles, Blum hinges, 150mm adjustable plinth legs and one pre-installed adjustable shelf.

Extra shelves and shelf pegs are available.

Door height: 715mm.

Drawerline cabinets

Single drawerline cabinets include one door, two handles, Blum hinges, 150mm adjustable plinth legs, one pre-installed drawer box and one pre-installed adjustable shelf.

Double drawerline cabinets include two doors, four handles, Blum hinges, 150mm adjustable plinth legs, two pre-installed drawer boxes and one pre-installed adjustable shelf.

Extra shelves and shelf pegs are available.

Drawer heights: 140mm and 570mm.

Doors and handles

Doors and drawer fronts are supplied undrilled for handles as standard. We can drill for handles on request, except for Croft, Dakar and Fruin ranges which have integrated handles.

Hinged options

Single door and single drawerline cabinets are supplied undrilled for hinges as standard. We can drill for hinges on request — handing needs to be confirmed. For example, left-hand hung means the hinges are on the left side of the door.

Double door and double drawerline cabinets are supplied undrilled for hinges as standard. We can drill for hinges on request — handing needs to be confirmed. For example, left-hand hung means the hinges are on the left side of the door.

Cabinet specifications

All open cabinets are 720mm high (excluding the 150mm plinth legs) and 570mm deep (excluding the frontal). Standard open cabinets include one pre-installed adjustable shelf. Drawerline cabinets include a 140mm drawer front, one working drawer box, a shelf, handle and adjustable legs.

Finish and handles

Open units match the door colour. Not available in Fruin, Hayle, Hermitage or Hampton. Drawerline fronts are undrilled for handles as standard; drilling is available on request, except for Croft, Dakar and Fruin integrated-handle ranges.

Built-under single oven

Oven housing BO

Single-oven base housing

Cabinet: 720mm high × 570mm deep (excluding frontal).
Legs: 150mm adjustable plinth legs included.

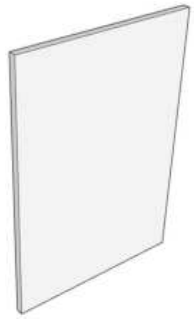
Supplied with a **140mm high filler panel** which can be split or cut on site to reduce the oven aperture.

Hob separator panels are not required for this housing.

Cabinet width (mm)	600
Single oven base cabinet code	**B0060**

Built-under double ovens: Typically 700–720mm high and freestanding, so a housing is not normally required. Always check the specific appliance dimensions.

Integrated appliance frontals



Highline AF
715mm door

Drawerline A
570mm + 140mm

Frontals only

Highline: 715mm door.
Drawerline: 570mm door with a 140mm drawer front.

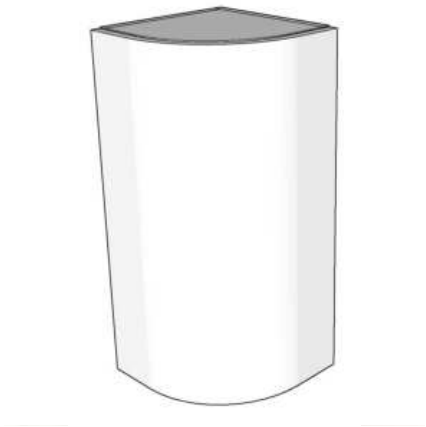
These frontals fit integrated appliances and **do not require a separate housing cabinet.**

Door width (mm)	450	600
Highline appliance frontal code	**F45AF**	**F60AF**
Drawerline appliance frontal code	**F45A**	**F60A**

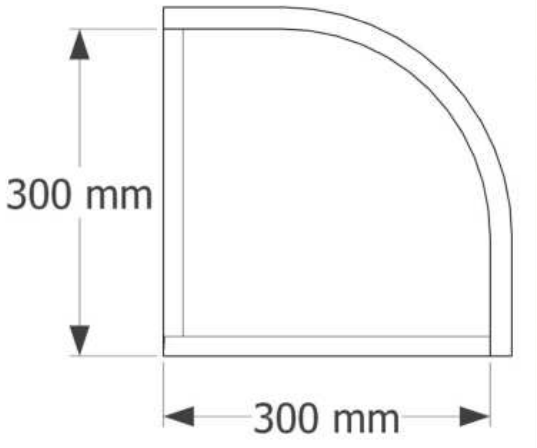
Appliance installation: Integrated dishwashers, washing machines, tumble dryers, under-counter fridges and freezers fit between units or end panels. The hinge template and hinges are supplied with the appliance, not by Roundel.

Handles: One handle is supplied loose; frontals are undrilled as standard. Drilling is available on request except for Croft, Dakar and Fruin integrated-handle ranges. Allow a 600mm opening (450mm slimline); gap adjustments may require extra materials.

Curved base cabinet



Curved cabinet AF



300 × 300mm plan view

Cabinet size (mm)	Cabinet code
300 × 300*	**B030RE**

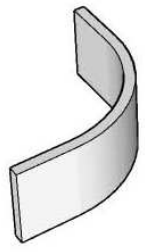
Dimensions

720mm high, approximately 300mm wide × 300mm deep. Actual dimensions vary with the supplier's door radius.

Components

One door, handle, Blum hinges, 150mm adjustable plinth legs and a fixed, centred shelf. Fittings supplied loose; undrilled as standard. Drilling on request (confirm handing).

Matching curved plinth



Curved plinth

Curved plinth - ordered separately

Code: PL150_RE300
Size: 150mm high × 319mm wide*

Required to install the B030RE. Manufactured to match the PL150_FF plinth; check your existing profile before ordering, as replacement plinths may be needed.

Range availability: Feay, Fruin, Hayle and Hermitage.

*Dimensions may vary with the curved profile.

900mm high

Cabinet width (mm)

Cabinet	800	1000
HW glazed	**HW080FG**	**HW100FG**
TW glazed	**X**	**TW100FG**

Cabinet specifications
HW cabinets are 720mm high and TW cabinets 900mm high, all 300mm deep. Each includes two glass shelves. The interior matches the kitchen-door colour; glazed cabinets are open units with a glass door.

Components and drilling
Single doors include one door, one handle, Blum hinges, nickel wall hangers and plates; double doors include two doors and two handles. Fittings are supplied loose. Doors are undrilled as standard; drilling is available on request with handing confirmed.

Range restrictions
Feay: all listed sizes. Durban and Durness: HW050FG and HW100FG only. Fruin: HW050FG and HW100FG only. Hayle, Hermitage and Hampton: HW040FG, HW050FG, HW080FG, HW100FG, TW050FG and TW100FG only. Original guidance also advises alternative range/colour selection for Fruin, Hayle, Hermitage and Hampton; confirm with Sales Team.

TW - 400mm deep	**TWBST050_400**	**TWBST060_400**

Cabinet measurements	High wall boiler housing: 720mm high with a 715mm door. Tall wall housing: 900mm high with an 895mm door. Choose the correct 300mm or 400mm nominal depth as shown in the code table; final depth may vary.
Flat-pack exception	Unlike standard wall cabinets, boiler housings are supplied flat-pack for on-site assembly with Rafix fittings. One door, one handle and Blum hinges are included.
Ventilation and access	Boiler housings have no built-in top or bottom to allow ventilation. Do not box in pipes or reduce necessary ventilation. Check the boiler manufacturer's installation requirements before ordering or fitting.
Doors and handing	Doors are supplied undrilled for handles and hinges as standard. Drilling is available on request; confirm left- or right-hand handing. Croft, Dakar and Fruin have integrated handles.

Wine rack cabinet codes

Cabinet / width	150mm
1970mm open wine rack · 15 holes	**HL015WR**
2150mm tall open wine rack	**TL015WR**

Dimensions	Both are 150mm wide and 570mm deep. HL version is 1970mm high; TL version is 2150mm high. Adjustable plinth legs are additional.
Bottle storage	The 1970mm HL015WR has 15 pigeon holes, approximately 112mm high × 280mm deep. The 2150mm version has additional height; confirm its compartment dimensions before ordering.
Colour and availability	Open units match the kitchen door colour. Not available in Fruin, Hayle, Hermitage or Hampton; contact the Sales Team about alternative range or colour options.

Cabinet Only

Choose the carcass you need

Use your selected cabinet from the product pages as the starting point.

Same familiar cabinets. A simpler way to order without frontals.

Complete cabinet

Includes its specified doors or drawer frontals.

Cabinet Only

Carcass without the door or drawer frontal.

1

Find your cabinet

Use the Base, Wall or Larder pages to identify the correct type.

2

Check the dimensions

Match width, height, depth and door-split or handing details.

3

Select the CO code

Use the tables on the next pages and enter the full code on your order form.

Before you order

Cabinet Only excludes the cabinet frontals. Standard shelves, legs and installation fittings depend on the selected cabinet; the Sales Team can confirm what is supplied.

Do not infer depth from the code suffix: an ending such as **_300** does not always mean 300mm deep. Read the depth column before ordering.

Availability and customer-specific drilling/handing must be confirmed before an order is accepted.

Cabinet Only

Base cabinets

720mm or 900mm high carcasses. Depths exclude any frontal.

Codes are shown in full, including CO:. A dash means the option is not in the supplied Cabinet Only list.

1970mm	**FINHTL**	**FINHTR**
2150mm	**FINTTL**	**FINTTR**

Before you order

Finished ends are available in all ranges. Standard cabinet colours depend on the installed specification: Fusion and Serenity are grey, Concetto is anthracite linen, and Heritage is textured oak. Check your Cabinet Specification pages before ordering.

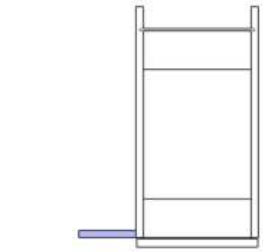
Decor Panels

Standard fillers

Choose a filler to match your cabinet type and height. All measurements are in millimetres.

Standard fillers

Base, wall and larder



Filling the gap

Standard fillers align with cabinet boxes, not doors

How they fit	Standard fillers close gaps between a cabinet and a wall, another cabinet or an appliance housing. They can be trimmed on site.
Woodgrain	Woodgrain boards are fitted with a vertical grain direction.

Base fillers

Cabinet height	Product code	Panel size (H × W)
720mm	**BF140**	720 × 140mm

Wall fillers

Cabinet type / height	Product code	Panel size (H × W)
Bridging · 290mm	**WOF140**	290 × 140mm
Bridging · 360mm	**HWOF140**	360 × 140mm
Wall · 575mm	**WF140**	575 × 140mm
Wall · 720mm	**HWF140**	720 × 140mm
Wall · 900mm	**TWF140**	900 × 140mm

Larder fillers

Cabinet height	Product code	Panel size (H × W)
1970mm	**HTF140**	1970 × 140mm
2150mm	**TTF140**	2150 × 140mm

Range availability	Standard fillers are available in the listed ranges except Fruin, Hayle, Hermitage and Hampton. Ask the Sales Team about customised alternatives.

Frontal Fillers

Base, wall & larder cabinets

Use these options when the filler needs to sit level with the front of the doors.

Frontal fillers

Matching door material

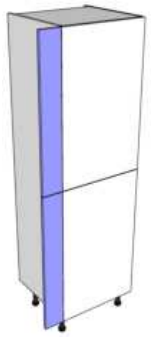
How they fit

Unlike standard cabinet fillers, frontal fillers sit flush with the doors. They can be supplied for the left or right side; confirm orientation and available width for your range.

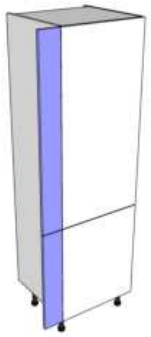
Base and wall cabinet frontal fillers

Cabinet type / height	Product code	Panel height
Base · 720mm	**BFF140**	715mm
Bridging · 290mm	**WOFF140**	285mm
Bridging · 360mm	**HWOFF140**	355mm
Wall · 575mm	**WFF140**	570mm
Wall · 720mm	**HWFF140**	715mm
Wall · 900mm	**TWFF140**	895mm

Match the larder door split



HTFF_7030 style



HTFF_5050 style

Larder frontal fillers mirror the original cabinet-door split, even though they are ordered without the complete cabinet. Some configurations use multiple pieces.

Larder frontal fillers

Larder height	Door split	Product code	Individual frontal heights
1970mm	**70/30**	**HTFF140_7030**	1245 + 715mm
1970mm	**50/50**	**HTFF140_5050**	2 × 980mm
1970mm	**30/70**	**HTFF140_3070**	715 + 1245mm
2150mm	**40/60**	**TTFF140_4060**	895 + 1245mm
2150mm	**60/40**	**TTFF140_6040**	1245 + 895mm
2150mm	**50/50**	**TTFF140_5050**	175 + 2 × 980mm
2150mm	**70/30**	**TTFF140_7030**	175 + 1245 + 715mm

Check availability

Frontal fillers are listed for all ranges. Widths depend on available door sizes; the original guide aims for approximately 147mm. Confirm width and split before ordering.

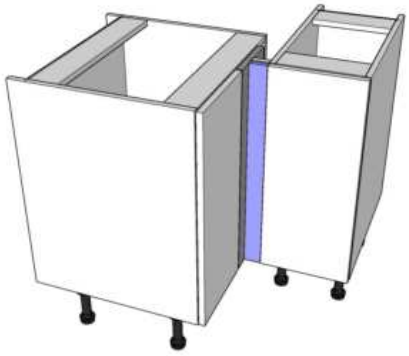
Corner Post Fillers

Base & wall cabinets

Finish the junction between two cabinet runs with a matching corner post filler.

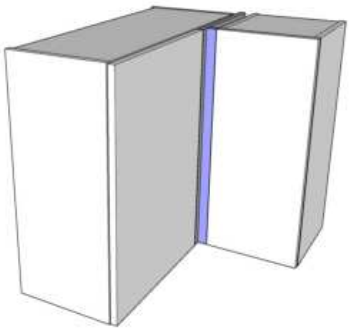
Corner post frontal fillers

Base and wall cabinets



Base corner post

Two matching frontal panels



Wall corner post

Use the installed wall-unit height

Product codes · two matching frontals per corner post

Cabinet type / height	Product code	Frontals supplied
Base · 720mm	**BCPFF145**	2 × 715mm
Wall · 575mm	**WCPFF145**	2 × 570mm
Wall · 720mm	**HWCPFF145**	2 × 715mm
Wall · 900mm	**TWCPFF145**	2 × 895mm

How the corner is finished	Two frontal fillers form the corner. A cabinet-coloured 24mm post sits behind the second filler so the visible panel meets the door neatly.
Left- or right-handed?	Handing determines which edges are visible. These diagrams show right-handed corners; confirm the required orientation.
Ordering guidance	Corner post frontal fillers are listed for all ranges. Width depends on available door sizes; Two 147mm-wide frontals may be suitable; confirm exact widths with the Sales Team.

Cornice

Top moulding & lighting pelmet

Identify the trim appropriate for the kitchen range installed in your property.

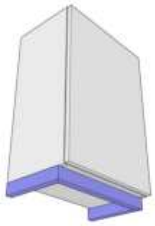
Top moulding and light pelmet

Top moulding (TM)	Decorative trim fitted along the top edge of wall cabinets.
Lighting pelmet (LP)	Trim fitted below wall cabinets; can also be used as a modern top moulding with shaker doors.

Shaker-style options

Ranges: Durban, Durness, Feay, Hampton, Hayle, Hermitage

Traditional top moulding



Modern top moulding / pelmet

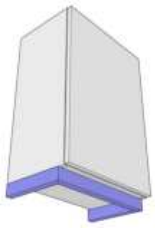
Shaker trim codes

Option	Product code	Length
Traditional top moulding	**TM2_FF**	3050mm
Modern top moulding	**LP2_FF**	3050mm
Lighting pelmet	**LP2_FF**	3050mm

Slab-style options

Ranges: Avon, Banwell, Bracken, Brent, Cabana, Cadwell, Croft, Dakar, Dakota, Denver, Forss, Fruin

Top moulding



Lighting pelmet

Slab trim codes

Option	Product code	Length
Top moulding	**TM2**	2400mm
Lighting pelmet	**LP2**	2400mm

Before you order	TM2 and LP2 can be supplied cut to size through the customisation service. The _FF versions are available only in their listed lengths. Slab-style kitchens may also use 18DBP panels with wall cabinets; contact the Sales Team to confirm the correct option.

Worktops

38mm laminate finishes

Use the colour swatches to identify the worktop installed in your property. Confirm the code and finish with the Sales Team.

Terrazzo Dune

Choosing a finish

These are the six 22mm finishes shown in the supplied catalogue. Select your preferred colour and contact the Sales Team to confirm availability and ordering details.

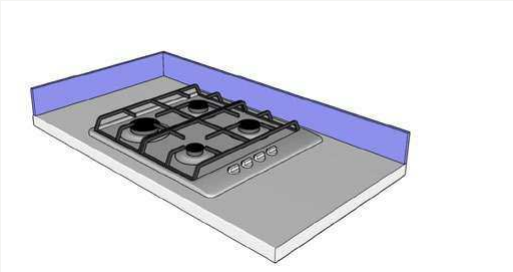
Worktops

38mm & 25mm components

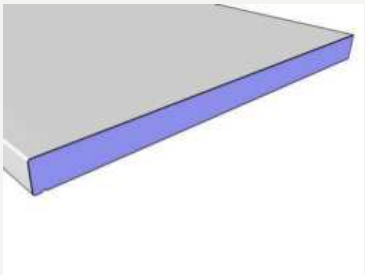
Select the worktop and any matching finishing components by product code and size.

38mm and 25mm laminate components

All dimensions in mm



Upstand (highlighted)



Edging strip (highlighted)

38mm laminate worktops

Component	Code	Length	Depth / width	Height / thickness
Quadra-edge worktop	**W4067D_PREMIER**	4100	670	38
Quadra-edge breakfast bar	**W409D_PREMIER**	4100	900	38
Splashback	**WSB4100**	4100	640	9
Upstand (3mm radius edge)	**WUP120_4100**	4100	20	120
Edging strip	**W40LAM4100**	4100	45	0.8

25mm laminate worktops (subject to remaining stock)

Component	Code	Length	Depth / width	Height / thickness
Square-edge worktop	**WT25×650**	4100	650	25
Square-edge breakfast bar	**WT25×920**	4100	920	25
Splashback	**WSB4100**	4100	640	9
Upstand (square edge)	**WUP120_4100**	4100	18	120
ABS edging strip	**W40LAM4100**	4100	30	1.5

Important ordering notes

Edging strips are supplied separately. State the required colour. Laminate can be cut to size through the customisation service; confirm the finish, length and availability with the Sales Team.

Duropal Quadra-edge worktops include a V-groove seal designed to reduce moisture and steam penetration. The front profile also helps to limit spills into the cabinets below.

Worktops

22mm components

Choose the correct depth, finish and associated edging or upstand before ordering.

22mm laminate worktop components

All dimensions in mm

Worktops, breakfast bars and finishing trims

Component	Code	Length	Depth / width	Height / thickness
Square-edge worktop	**WT22×600**	4100	600	22
Square-edge breakfast bar	**WT22×640**	4100	640	22
Square-edge breakfast bar	**WT22×900**	4100	900	22
Upstand	**WT22WUP100**	3000	100	20
Edging strip	**W22LAM**	4100	30	1.8

1. Select your finish

Choose from the 22mm colours shown on the previous page.

2. Check the dimensions

Select a 600mm-deep worktop or a 640mm / 900mm breakfast bar.

3. Add finishing trims

Specify an upstand or edging strip where required. Edging strips are not included with the worktop or upstand.

4. Confirm the order

Tell the Sales Team which colour you need, the lengths required and whether cutting to size is necessary.

Customisation

22mm laminate worktops can be supplied cut to size using the customisation service. Confirm measurements and any additional materials before ordering.

Kitchen Islands

Planning your island

Use this guide to plan a practical layout with suitable clearances, seating and cabinet combinations.

Kitchen island design guide — Planning information

A kitchen island is built from individual base cabinets secured together by your installer. The configuration, required services and finished dimensions depend on the intended use.

1. What will your island do?

- Food preparation and extra worktop space
- Cooking with a hob or range
- Cleaning with a sink or dishwasher
- Seating, dining and storage

Its purpose determines the layout and plumbing or electrical requirements.

2. Allow clearance

- **910mm** minimum walkway clearance
- **1.7m** recommended for work aisles
- **1.2m** recommended where multiple cooks share the space

A room of around 3.65m × 3.65m may suit a small island; consider a peninsula where space is limited.

3. Plan comfortable seating

Allow approximately **600–800mm per person** along the worktop.

For seated knee space, an unobstructed overhang of approximately **250–300mm** is suggested.

Suggested seating widths

People	Total width
2	**1200–1600mm**
3	**1800–2400mm**
4	**2400–3200mm**
5	**3000–4000mm**

4. Choose the layout

Configuration	How it works
Freestanding island	**Separate cabinet unit accessible from all sides; best where ample floor space is available.**
Peninsula	**Connected to a wall or cabinet run on one side, offering three-sided access.**
Breakfast bar	**Seating function that can be incorporated into either layout.**

Before ordering

Check finished dimensions, circulation, seating overhangs and installation requirements with your kitchen installer. The following pages provide example cabinet combinations, not a complete fitted-island specification.

Kitchen Islands

Freestanding designs

Two example islands with numbered component diagrams and suggested product codes.

Freestanding island examples

9 WUP			

Installation and compatibility

A peninsula is attached at one end. The numbered illustrations show example cabinet arrangements; confirm the structural fixing, available finishes, handing and associated worktop details with the Sales Team.

Accessories

Base cabinet accessories

Additional components for plinth installation, appliance ventilation and hinge replacement.

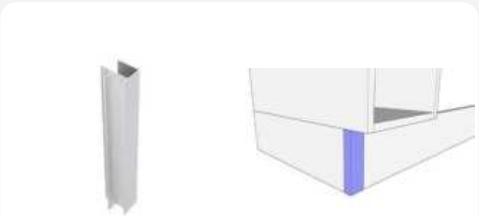
Base cabinet accessories — Plinths, ventilation and hinges

Adjustable plinth leg

PLINTHLEG

A three-part leg assembly with dowel-fixed socket, adjustable column and plinth clip.

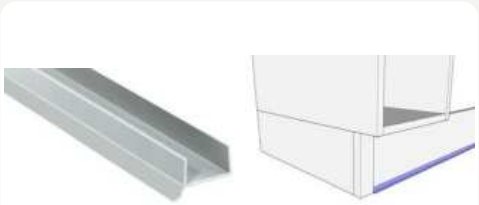
Colour / finish: Black



Plinth end cap

PCC_SQ

Used at the end of a plinth run or beside an appliance gap where the plinth does not finish against a plant-on end panel.

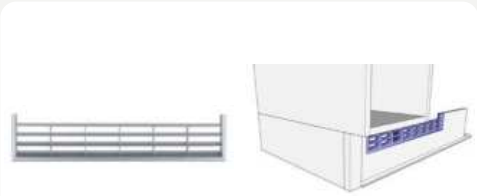


Plinth sealing strip

CPE18

Fits to the bottom of PL150 or PL180 to seal the gap between the plinth and kitchen floor. Supplied in 3050mm lengths.

Colour / finish: Transparent plastic



Plinth ventilation grille

PLINTH_GRILL

Ventilation option used mainly with appliance housings. Check the requirements for a 200cm² ventilation opening.

Colour / finish: Silver White

Zero-protrusion hinges

ZMH ZERO PROTUSION_10PACK / ZMH ZERO PROTUSION_5PACK

155° zero-protrusion hinges, supplied in packs of 10 or 5.

Confirm the correct hinge pack code with the Sales Team before ordering.

Accessories

Hinges & shelves

Select the correct hinge opening angle, pack quantity or replacement shelf by cabinet width.

Hinges and replacement shelves

Base, larder and wall units

Width: 921mm | Depth: 473mm

Confirm the original drawer width before ordering.

Cutlery Trays

Concetto & Heritage cabinets

Choose a tray using the original drawer specification and drawer-front width. Sizes are in millimetres.

Cabinet-compatible cutlery trays

For concealed internal top Legrabox drawers. Measure the bottom of the drawer; measuring the top may result in a depth reading 14mm too large.

ZLCT450_450

Width 371mm | Depth 423mm

ZLCT500_450

Width 421mm | Depth 423mm

ZLCT600_450

Width 521mm | Depth 423mm

Select the code that matches your original drawer width and cabinet specification.

Cutlery Trays

Concetto & Heritage cabinets

Choose a tray using the original drawer specification and drawer-front width. Sizes are in millimetres.

Cabinet-compatible cutlery trays

Continuation of the 423mm-deep trays for concealed internal top Legrabox drawers. Measure at the bottom of the drawer.

ZLCT800_450

Width: 721mm | Depth: 423mm

Confirm the original drawer width before ordering.

ZLCT900_450

Width: 821mm | Depth: 423mm

Confirm the original drawer width before ordering.

ZLCT1000_450

Width: 921mm | Depth: 423mm

Confirm the original drawer width before ordering.

Cutlery Trays

Fusion & Serenity cabinets

Choose a tray using the original drawer specification and drawer-front width. Sizes are in millimetres.

Cabinet-compatible cutlery trays

For Fusion and Serenity, designed for top 140mm or 175mm high or internal hidden drawers; measure the external drawer front.

ZTCT450

Width 364mm | Depth 422mm

ZTCT500

Width 414mm | Depth 422mm

ZTCT600

Width 514mm | Depth 422mm

Select the code that matches your original drawer width and cabinet specification.

Cutlery Trays

Fusion & Serenity cabinets

Choose a tray using the original drawer specification and drawer-front width. Sizes are in millimetres.

Cabinet-compatible cutlery trays

Continuation of the 422mm-deep Fusion and Serenity trays. Confirm the drawer-front width before ordering.

ZTCT800

Width: 714mm | Depth: 422mm

Confirm the original drawer width before ordering.

ZTCT900

Width: 814mm | Depth: 422mm

Confirm the original drawer width before ordering.

ZTCT1000

Width: 914mm | Depth: 422mm

Confirm the original drawer width before ordering.

Waste Bins

300mm cabinet · hinged door

Waste bin options for a 300mm-wide hinged-door base cabinet

300mm · Hinged door

Bins are supplied uninstalled and require assembly by your tradesperson.
A standard base cabinet may need its adjustable shelf removed. For a new base unit, request an undrilled shelf.
All shown frames fix to the cabinet base; the bin pulls out independently of the door.

222-GY — 2 × 14 litres

400 H × 255 W × 450 D mm

Lid can be used as a shelf

223-GY — 3 × 10 litres

400 H × 255 W × 450 D mm

Lid can be used as a shelf

224-GY — 1 × 30 litres

400 H × 255 W × 450 D mm

Lid can be used as a shelf

280GY — 1 × 16 litres

360 H × 230 W × 380 D mm

Suitable for use under a sink

286SS — 1 × 20 litres

423 H × 230 W × 380 D mm

Stainless steel construction

294-GY — 1 × 40 litres

537 H × 255 W × 450 D mm

Lid can be used as a shelf

Waste Bins

300mm cabinet · pull-out door

Pull-out bin and compatible shelf accessory for 300mm cabinets

300mm · Pull-out door

Bins are supplied uninstalled and require assembly by your tradesperson.
A standard base cabinet may need its adjustable shelf removed. For a new base unit, request an undrilled shelf.
The bin frame attaches to the cabinet side, and the bin pulls out attached to the door.

580PL/30-GY — 1 × 40 litres

506 H × 260 W × 502 D mm

Soft close; supplied with plastic lid

LID580PL/30-GY — Optional accessory

Pull-out plastic shelf and fixed lid

suitable for installation with 580PL/30-GY

Waste Bins

Frame attached to the cabinet side;
supplied with metal shelf

Waste Bins

600mm cabinet · pull-out door

Optional shelf to suit the matching pull-out bin

600mm · Shelf accessory

Bins are supplied uninstalled and need assembly by your tradesperson. A standard base cabinet may need its adjustable shelf removed. When ordering a new base unit for a bin, request an undrilled shelf.
Check that the shelf accessory is compatible with the selected bin before ordering.

LID580PL/60-GY — Optional accessory

Pull-out plastic shelf and fixed lid

suitable for installation with 580PL/60-GY

Waste Bins

Pan drawer waste bins

Trays sized for 600mm, 800mm and 900mm-wide drawers

Pan drawer · Waste bins

Bins are supplied uninstalled. Confirm that the chosen pan-drawer system provides the required internal clearances before ordering.

9XL/600-GY

1 × 9 & 1 × 20 litre compartments

209 H × 540 W × 490 D mm

Suitable for a 600mm-wide pan drawer

Width and depth can be cut down between the sizes indicated.

9XL/800-GY

2 × 9 & 1 × 20 litre compartments

209 H × 740 W × 490 D mm

Suitable for an 800mm-wide pan drawer

Width and depth can be cut down between the sizes indicated.

9XL/900-GY

1 × 9 & 2 × 20 litre compartments

209 H × 840 W × 490 D mm

Suitable for a 900mm-wide pan drawer

Width and depth can be cut down between the sizes indicated.

Waste Bins

Pan drawer waste bins

1000mm-wide pan drawer option

Pan drawer · Waste bins

Bins are supplied uninstalled. Confirm that the chosen pan-drawer system provides the required internal clearances before ordering.

9XL/1000-GY

2 × 9 & 2 × 20 litre compartments

209 H × 940 W × 490 D mm

Suitable for a 1000mm-wide pan drawer

Width and depth can be cut down between the sizes indicated.

Check internal drawer width and depth before ordering.

The bin can be supplied as part of the wider pan-drawer waste-bin range.

Storage Solutions

Corner base cabinet · LeMans

Choose the correct pull-out mechanism for your corner cabinet and confirm the door handing.

Before choosing your corner storage Corner mechanisms are supplied uninstalled for assembly by your tradesperson. A standard corner base cabinet can be adapted by removing its adjustable shelf. If ordering a cabinet with a mechanism, ask the Sales Team about supplying it undrilled for the shelf.

LeMans

The kidney-shaped trays swing almost completely out of the cabinet, making stored items easy to reach.

Moveboard

The trays extend outwards but remain partly inside the cabinet, providing a more compact option where clearance is limited.

LeMans — Arena Pure · anthracite

Corner pull-out with two shelves

Two independent kidney-shaped shelves swing around the corner to access otherwise hard-to-reach items.

Anthracite powder-coated profiles with anti-slip anthracite tray bases.

An axle and two trays are included. No additional shelves or spare parts are supplied.

Choose the matching cabinet and door size

Cabinet width	Door size	Left-hand code	Right-hand code
Over 764mm	400mm	KAP2LM400AL	KAP2LM400AR
Over 800mm	450mm	KAP2LM450AL	KAP2LM450AR
Over 910mm	500mm	KAP2LM500AL	KAP2LM500AR
Over 960mm	600mm	KAP2LM600AL	KAP2LM600AR

Optional soft-close mechanism

KLMASCML · Left-hand
KLMASCMR · Right-hand

Soft-closing mechanism in anthracite, purchased separately.

Confirm the handing

Left: door on the left; blank/void section on the right.

Right: door on the right; blank/void section on the left.

Storage Solutions

Corner base cabinet · Moveboard

A compact pull-out option for blind-corner cabinets.

For compact blind-corner storage The Moveboard uses two independent kidney-shaped shelves which extend or pull out from the cabinet while remaining partly inside.

Kesseböhmer Moveboard — Left- and right-handed options

Product codes by width and handing

Cabinet width	Door size	Left-hand code	Right-hand code
800mm	400mm	KMB400ANTHL	KMB400ANTHR
Over 900mm	450mm	KMB450ANTHL	KMB450ANTHR
1000mm	500mm	KMB500ANTHL	KMB500ANTHR

Left-handed

The corner cabinet door is on the **left** when closed and the blank/void section is on the right.

Right-handed

The corner cabinet door is on the **right** when closed and the blank/void section is on the left.

What's included An axle and two trays are supplied. Additional shelves, spare parts and a soft-close mechanism are not offered for the Moveboard.

Storage Solutions

Base cabinet pull-outs

Product options for narrow base cabinets. Measurements are in millimetres.

For narrow base cabinets Kesseböhmer pull-outs help make the full cabinet more accessible in one movement. All are supplied uninstalled for assembly by your tradesperson.

Kesseböhmer base pull-outs — Anthracite Arena

150mm base pull-out

PRODUCT CODE

Anthracite Arena · cabinet width 400mm

Before ordering The pull-out mechanism and two trays are included; additional baskets or spare components are not offered. For a standard base cabinet, the adjustable shelf is removed. Ask for the cabinet to be supplied undrilled for this shelf and confirm compatibility with the Sales Team.

Storage Solutions

Larder cabinet storage

Three ways to improve access to items stored in your tall cabinet.

Before ordering larder storage These mechanisms are supplied uninstalled for fitting by your tradesperson. Tell the Sales Team when ordering your larder cabinet so it can be supplied **without the three standard fixed shelves**.

Kesseböhmer larder storage — Choose your mechanism

Dispensa pull-out

ARENA PURE

KAPLF300FEA
300mm wide

KAPLF400FEA
400mm wide

Optional adaptor: KTLSOFTOPEN
(Softopen)

Single, smooth pull-out mechanism with adjustable height for an internal cabinet height of **1800–2200mm** and minimum depth of **500mm**.

The mechanism and **five trays** are included. Fit baskets according to the lowest adjustable height. No additional shelves or spare parts.

Tandem Solo

ARENA PURE

KAPTSFH500
500mm wide

KAPTAFH600
600mm wide

For hinged-door tall cabinets with a minimum height of **1800mm** and minimum depth of **495mm**.

Supplied with **six accessible trays**. Additional trays and spare parts are not offered.

Tandem Side

ARENA PURE

KAPTDFH500A
500mm wide

KAPTDFH600A
600mm wide

Six height-adjustable door shelves provide visibility and access to items stored at the back of the cabinet.

Additional trays and spare parts are not offered.

Important Check cabinet dimensions, shelf configuration and installation requirements with the Sales Team before ordering. Product codes above refer to the original technical selection.

Planning Guide

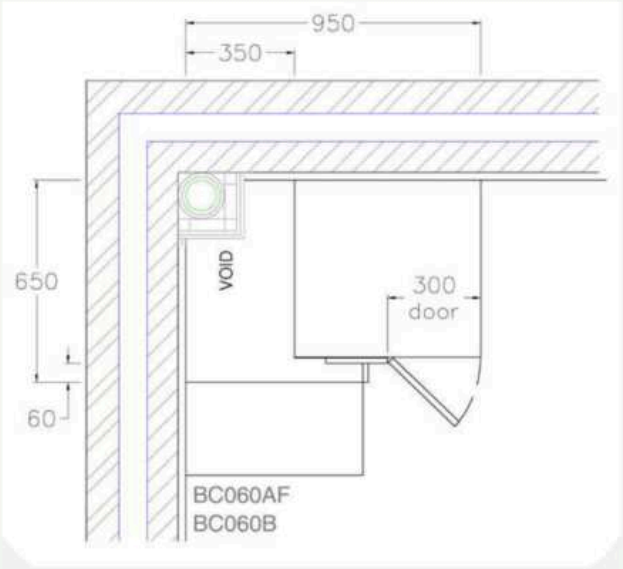
Base corner cabinets

Choose the correct cabinet layout and door width. The drawings are left-hand versions; all dimensions are in millimetres.

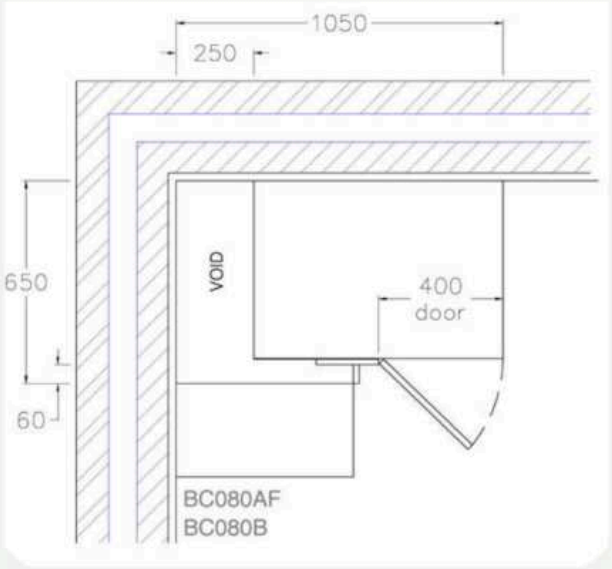
Base corners | 600mm and 800mm cabinets

The cabinet width in a product code (for example 080) describes the unit width, not the full overall layout. Allow for the adjoining void and check the door swing.

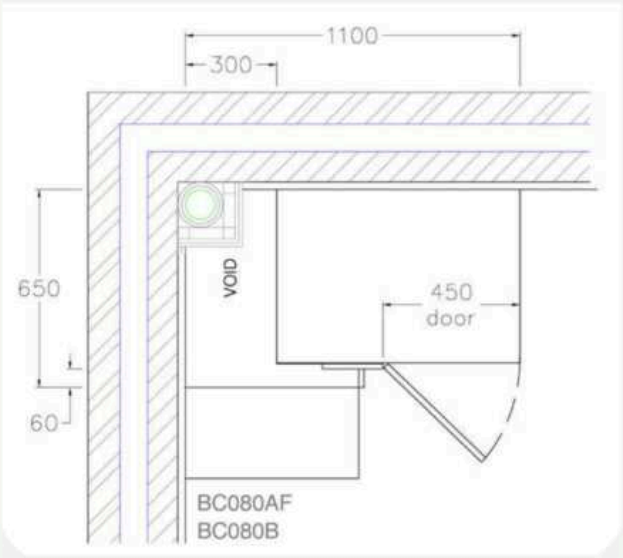
600mm corner · 300mm door



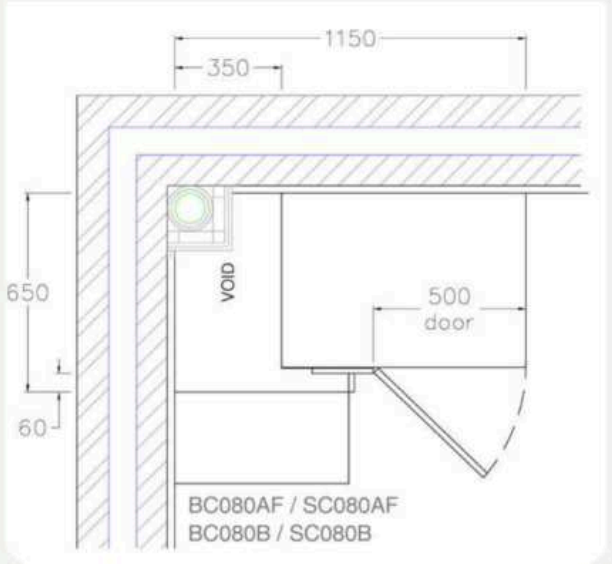
800mm corner · 400mm door



800mm corner · 450mm door



800mm corner · 500mm door



Planning Guide

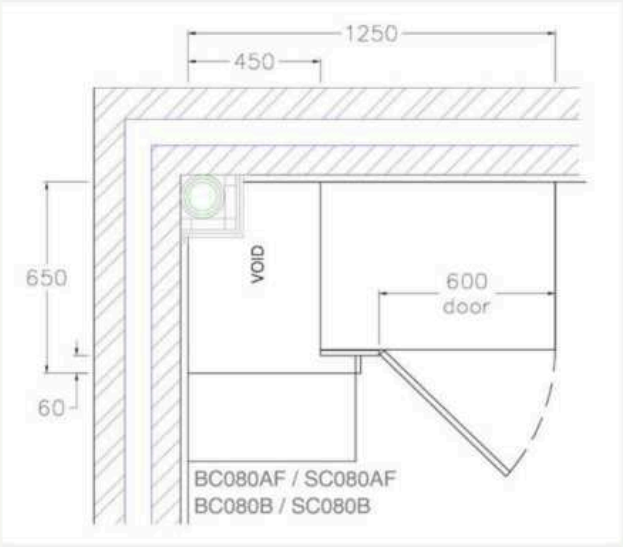
Base corner cabinets

Further layouts for larger base corner units. Follow the diagram to identify the required void and door width.

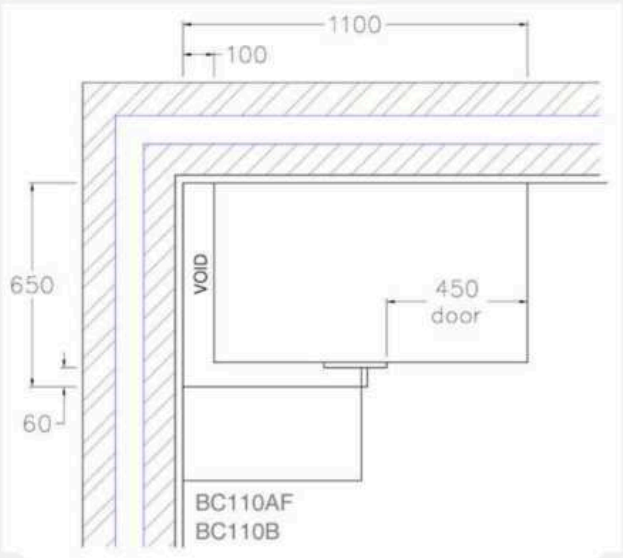
Base corners | Larger layouts

These diagrams show left-hand (LH) base corner cabinets. A base corner post (BCPFF145) is required for installation.

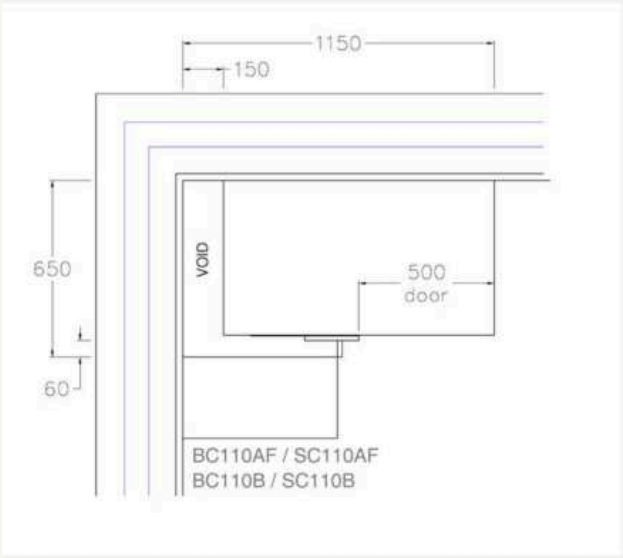
800mm corner · 600mm door



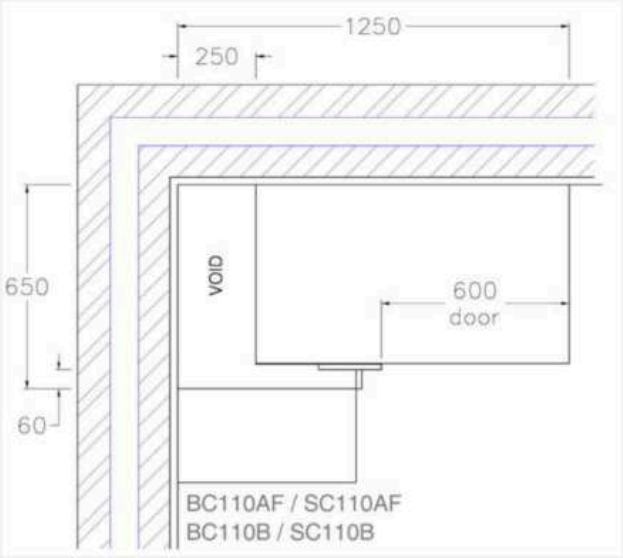
1000mm corner · 450mm door



1000mm corner · 500mm door



1000mm corner · 600mm door



Planning Guide

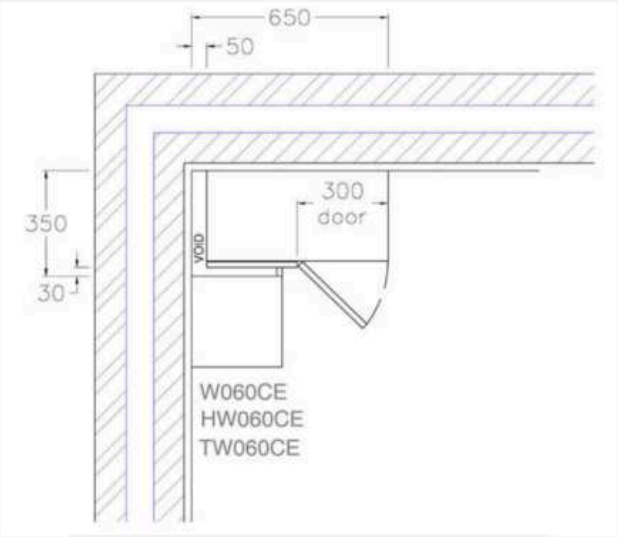
Wall corner cabinets

Match the overall plan, available void space and the door size to your wall cabinet. Sizes are in millimetres.

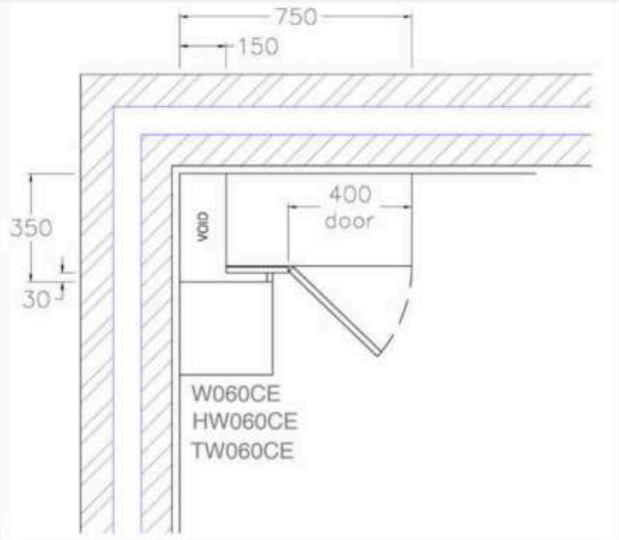
Wall corners | 300mm to 500mm doors

All diagrams show left-hand (LH) corner cabinets. Check dimensions against the installed cabinet and confirm the appropriate corner post before ordering.

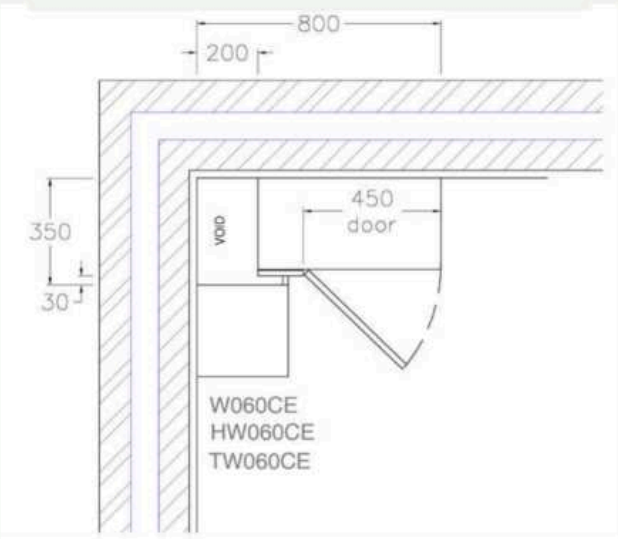
650mm plan · 300mm door



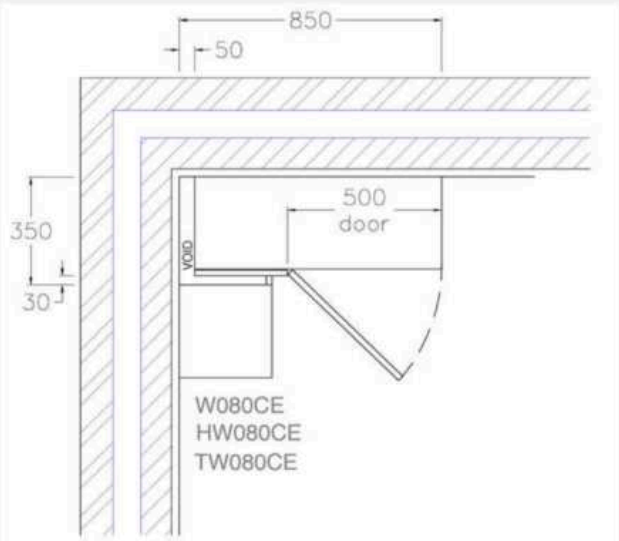
750mm plan · 400mm door



800mm plan · 450mm door



850mm plan · 500mm door



Planning Guide

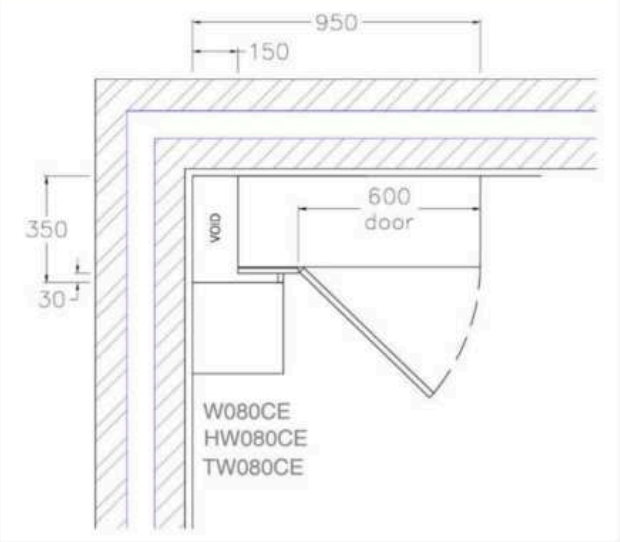
Wall corner cabinets

The larger wall-corner planning examples. Confirm the cabinet type and the adjoining void before ordering.

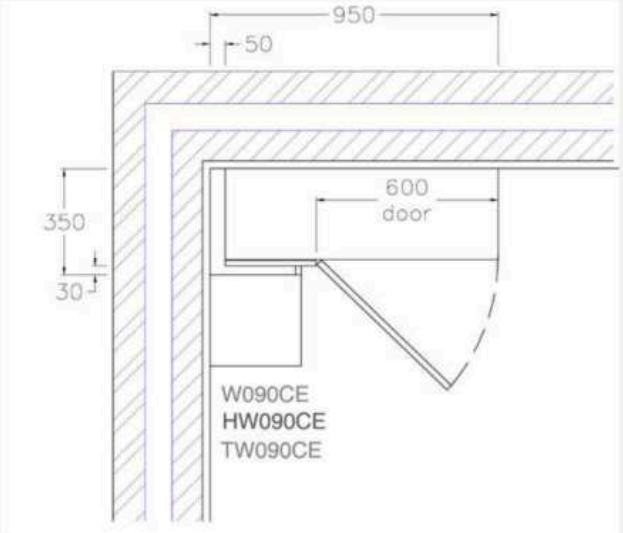
Wall corners | 600mm doors

These diagrams show left-hand wall corner cabinets. Dimensions are indicative; confirm the correct corner post and cabinet handing before ordering.

800mm corner · 600mm door



900mm corner · 600mm door



Before you order

Check the wall-cabinet code and handing against the cabinet pages. Leave enough clearance for the door and neighbouring units. Please confirm the correct corner post with the Sales Team before placing your order.
